EXPERIENCE

Mercedes-Benz Financial Services, Nieuwegein — BI analyst a.i.

OCTOBER 2022 – DECEMBER 2023

- Mapped the entire MB Financial Services business in order to develop and implement Power BI Dashboarding and automation improvements
- Worked as ad-hoc Risk Controller (4 months) and OPEX controller (6 months) and conducted monthly calls with management on their financials, but also data needs
- Through the use of Power Query and Power Pivot, enabled MB Portfolio and Acquisition files to run seamlessly during the close without any manual intervention, just a simple refresh
- Improved Insurance and Risk monthly close files to connect to a centralised Data-model, instead of relying on unstable links to other files
- Worked closely with the IT team in order to communicate business requirements
- Trained the controlling team on Power BI functionalities and helped them with their reporting requirements
- Gained knowledge of MS SQL Server system throughout my time at MBFS

Bol.com, Utrecht — Reporting specialist a.i.

JANUARY 2022 – SEPTEMBER 2022

- Developed a dynamic “one-click refresh” Actual and Forecast P&L. Each BU P&L is specifically tailored to the wishes of the responsible Business Unit controller. These reports are now being used by all financials within the company
- Played a key role in redesigning the entire Forecasting process and am continually improving the Vena database and P&L structure where needed
- Developed automated waterfall bridges for periodic, quarterly, and ytd reporting
- Automated monthly P&L reporting decks through the use of Excel VBA

- Built a simple “one-click” Excel to Powerpoint upload through the use of Excel VBA so that MT can get as many Actual or Budget reviews as they like in a powerpoint format

Microsoft, Amsterdam — Consulting Financial Analyst a.i.

OCTOBER 2020 - JUNE 2021

- Assisted the WE Services HQ finance and business in managing the WE P&L and Key Services Financial processes
- Developed a monthly Azure Usage file and Flash email for all WE countries using Power BI, now used worldwide within Microsoft
- Developed a monthly CSU (Account Manager performance tracker) file for all WE countries using Power BI, now used worldwide within Microsoft
- Automated outlook heatmaps for all WE countries using Excel VBA
- Managed the Spanish Subregion for paternity leave, providing Monthly Close, Outlook and Budgetary analysis & commentary
- Created a gap to target file in order to track WE progress throughout the year
- Provided Monthly outlook overviews for The Netherlands & Belgium
- Weekly Netherlands and Belgium revenue outlook

Action, Zwaagdijk HQ — Business Analyst Commercial Control a.i.

OCTOBER 2019 - MAY 2020

- Reporting of weekly sales data for the commercial control department. (I reduced the weekly sales data production time from 3 hours to 15 minutes a week through the use of Excel VBA)
- Developed a monthly Direct import analysis file in order to assist the Logistics and Controlling team. This file combined inventory inflow, stock on ship, actual and budgeted sales data. Data was sourced from SAP, Qlikview and other Excel files
- Developed a one click weekly SKU inflow file using Excel VBA
- Developed a file which measured margin impact due to product price changes
- In-store shelf change before and after analysis
- Pricing analysis per country
- FMCG strategy analysis
- Ad hoc pricing and supplier business analysis
- Assisted in transition from reporting system Qlikview to SAP Business Objects

GoldRepublic, Amsterdam — Precious Metals Financial Analyst & Manager
